Table of Contents

<i>Preface</i>	<i>1</i>
<i>Disclaimer</i>	<i>1</i>
<i>About TDG</i>	<i>2</i>
<i>Unit – General Awareness Introduction</i>	<i>1</i>
UNIT 1 - DANGEROUS GOODS	1
Definition	1
Who Regulates Transportation of DGs	1
Within the United States	1
Internationally	2
Different Regulation Books	3
Rules for Carriage by Vessel (Ocean)	3
The IMDG Volumes	4
Categories of Dangerous Goods	5
Dangerous Goods <i>Acceptable</i>	5
Dangerous Goods <i>Forbidden</i> Under any Circumstances (IATA 2.1; CFR 173.21)	5
Excepted dangerous goods	5
Hidden Dangerous Goods	6
Consumer Warnings	6
Shippers Basic Responsibility	7
EXERCISES - Unit 1: Dangerous Goods	9
<i>Unit 2 - Classes and Divisions</i>	<i>11</i>
Definitions	11
Primary and Subsidiary Risks	11
Responsibility	11
Packing Groups	11
Complete List of Classes and Divisions	13
Note: The appropriate reference from the IMDG regulations is shown for each hazard class.	13
CLASS 1 - EXPLOSIVES [IATA 3.1.3; CFR 173.50(1)-(6); IMDG 2.1]	13
CLASS 2 - GASES [IATA 3.2; CFR 173.115(a)-(c) ; IMDG 2.2]	14
CLASS 3 - FLAMMABLE LIQUIDS [IATA ref. 3.3.1; CFR ref. 173.120); IMDG 2.3]	14
CLASS 4 - Flammable Solids, Spontaneously Combustible and Dangerous When Wet [IATA 3.4; CFR 173.124(a)-(c)); IMDG 2.4]	15
CLASS 5 - OXIDIZING SUBSTANCES and ORGANIC PEROXIDES [IATA ref. 3.5.2 & 3; CFR ref. 173.127 &128); IMDG 2.5]	16
CLASS 6 - TOXIC SUBSTANCES and INFECTIOUS SUBSTANCES [IATA ref. 3.6.2; CFR ref. 173.132] & [IATA ref. 3.6.6; CFR ref. 173.134); IMDG 2.6]	17
CLASS 7 - RADIOACTIVE MATERIALS [IATA ref. 3.7.1; CFR ref. 173.403); IMDG 2.7]	17
CLASS 8 - CORROSIVES [IATA ref. 3.8.1.; CFR ref. 173.136); IMDG 2.8]	17
CLASS 9 - MISCELLANEOUS DANGEROUS GOODS [IATA ref. 3.9.1; CFR ref. 173.140); IMDG 2.9]	17
U.S. DOT Hazard Classes	18

Combustible Liquids	18
ORM-D	18
Consumer Commodity by Ocean	18
Unit 2 Review	19
EXERCISES - Unit 2: Classes and Divisions	20
<i>Unit 3 - Marking and Labeling</i>	<i>23</i>
General	23
Responsibility (IATA 7.1 & 7.2; CFR 172 subparts D & E)	23
Marking Requirements (IATA 7.1; 49 CFR 172.300; IMDG 5.2)	23
Requirements for overpacks	24
Labeling Requirements (IATA 7.2; 49 CFR 172.400; IMDG 5.2.2)	24
Hazard Labels	25
Hazard Labels May Not Be Required for Limited Quantity Shipments	25
Number of Hazard Label per package	25
Marine Pollutant Marking – Ocean Only (IMDG 5.2.1.6.3)	25
Handling Labels	25
Illustration of correctly marked/labeled package	26
<i>Unit 4 - Storage and Loading</i>	<i>29</i>
General	29
Explosives	30
Compatibility Groups	30
Organic Peroxides & Self-reactive Substances	32
Segregation requirements for Ocean IMDG 7.2	33
Examples:	34
Loading incompatible dangerous goods in containers	34
Limited Quantity Segregation Requirements	34
Also See 7.2 Packing of Cargo Transport Units	34
Loading DG's in an Ocean Container	35
Unit 4 Review	36
EXERCISES - Unit 5: Storage and Loading	37
<i>Unit 6 - Placarding</i>	<i>39</i>
Placarding for Aircraft ULDS and freight containers	39
General Requirements for Placarding	39
Responsibility	39
Definition	40
The Simple Method of Placarding	40

The Placarding Tables (1 & 2) CFR 172.504	41
Placarding Exceptions (CFR 172.504)	43
Table One items: NO EXCEPTIONS	43
Table Two items	43
Placarding Review	46
EXERCISES - Unit 6: Placarding	47
<i>Unit 7 - Accident / Incident Reporting</i>	<i>51</i>
General Rules for Accident Reporting	51
Important Phone Numbers	51
Filing of a Report	52
Written Report Requirements	52
Additional Written Report Requirements for Carriers	53
<i>Unit 7 - Emergency Response Information</i>	<i>55</i>
Emergency Response Information -- General	55
Using the Emergency Response Guidebook	55
1. Identify the material	55
2. Look up the material's 3-digit guide number	56
3. Turn to that section in the number guide (orange bordered pages)	56
Required Emergency Response Information (CFR49 172.600-604)	57
1) Telephone Number	57
Emergency Phone Number NOT required for certain items	57
2) Written Emergency Response Information	57
Units 7 & 8 Review	59
EXERCISES - Units 7 & 8: Accident / Incident Reporting & Emergency Response Information	60
<i>IMDG FUNCTION SPECIFIC TRAINING SECTION</i>	<i>62</i>
<i>IMDG – Introduction</i>	<i>62</i>
What's our overall goal in taking this course	62
What are the Shipper's Basic Responsibilities	62
What is the general process for preparing a shipment	62
<i>Identification</i>	<i>63</i>
Section 3.2 Dangerous Goods List	63
Section 3.2.1 Structure of the Dangerous Goods List	63
3.2.2 Abbreviations and symbols	66
Identify the Proper shipping name	67
Use of N.O.S. Entries	68
When must an N.O.S. entry be used	68
Review 1.2 – List of Generic and N.O.S. PSNs	68
Index of Dangerous Goods Proper Shipping Names (end of Volume 2)	69
The Index consists of 4 columns	69
Exercise	70

Unit: Types of Packagings	73
Key Packaging Definitions	73
Diagram of “combination” and “single” packaging	74
Combination Packaging	74
Single Packaging	75
Let’s review the table of package types in Section 6.1.2.7	75
Next review the specification package marking scheme in Section 6.1.3.6	76
Decoding the complete package marking	76
Example:	77
Some package codes for drums are different	77
Exercise: Specification packagings	78
Picture of an “overpack”	82
Overpack	82
Unit: Packing Instructions	83
Packing Instructions – IMDG Part 4	83
Understanding the table columns	83
Completing an example for Acetone	84
Packaging Options	84
Packing tables for solids	85
Let’s look up the packing instruction for Ferric Arsenate	85
Completing our example for Ferric Arsenate	85
Packaging Options	85
Other types of packing tables	86
Let’s look up the packing instruction for Acetone cyanohydrin, stabilized	86
Packaging Options	86
Unit Exercise (Packing)	87
Shipment 1	87
Packaging Options	87
Shipment 2	88
Packaging Options	88
Unit: Marking and Labeling	90
General	90
Responsibility	90
Marking Requirements (IMDG 5.2)	90
Marine Pollutant Marking (IMDG 5.2.1.6.3)	91
Labels 5.2.2	91
Handling Labels	91
Primary and Subsidiary Risk 5.2.2.1.2	91
Class 2 subrisks	91
Review provisions for labels in 5.2.2.2	91
Exercise	92

Marking and Labeling: Sample Shipment #1	93
Packaging Options	93
Unit: Limited Quantity Exceptions - IMDG Chapter 3.4	95
Key limitations of this provision	95
3.4.1 The full code applies unless indicated otherwise in this section	95
3.4.1 Some items NOT permitted	95
3.4.2.1 Gross mass of finished package not more than 30 kg	95
3.4.2.1 Must be designed to meet construction criteria of 6.1.4	95
Extract of Actual Provisions for Limited Quantities	96
3.4.1 General	96
3.4.2 Packing	96
3.4.3 Stowage	96
3.4.4 Segregation	96
3.4.5 Marking and Labelling	97
3.4.6 Documentation	97
3.4.7 Exemptions	97
3.4.8 Marine pollutants	97
Example: Flammable Liquids as Limited Quantity	98
Aerosols as Limited Quantity	98
Segregation of Limited Quantities (3.4.4)	98
3.4.4.1 Different DG in the same outer packaging	98
1. Segregation	98
Marking and Labeling of Limited Quantity shipments (3.4.5)	98
Placarding of Limited Quantity shipments (3.4.5.2)	98
Documentation of Limited Quantity shipments (3.4.6)	98
Exemptions to marking of proper shipping name and UN number (3.4.7)	98
Note to Air Students	99
Limited Quantity marking and labeling example	101
Exercise for Limited Quantities	102
Unit - Shipping Papers and Verification	103
Required Information	103
5.4.1.4.2 Sequence of the dangerous goods description	104
5.4.1.4.2 Sequence of the dangerous goods description	104
You can remember this by the acronym "SHIP"	104
This year there is an alternate sequence allowed	105
Other Required Information by the U.S. Government	105
Shipper's Certification 5.4.1.1.11	105
Container Packing Certificate 5.4.2	105
Official "recommended" IMDG form for dangerous goods (Next Page)	107
Shipping Paper Exercise	112
Shipping paper exercise	113
