

## Dangerous Goods Regulations 2013 54th edition (AM1)

### 2.2 Hidden Dangerous Goods

**2.2.1** Operators' acceptance staff must be adequately trained to assist them to identify and detect dangerous goods presented as general cargo.

**2.2.2** Cargo declared under a general description may contain hazardous articles that are not apparent. Such articles may also be found in baggage. With the aim of preventing undeclared dangerous goods from being loaded on an aircraft and passengers from taking on board those dangerous goods which they are not permitted to have in their baggage, cargo and passenger acceptance staff should seek confirmation from shippers and passengers about the contents of any item of cargo or baggage where there are suspicions that it may contain dangerous goods.

**2.2.3** In addition to dangerous goods training for cargo acceptance and passenger check-in staff as shown in Table 1.5.A or Table 1.5.B, as applicable, those staff and cargo reservations and sales staff and passenger reservations and sales staff must be provided with information. This information, as appropriate, must be readily available to such staff on:

- (a) general descriptions that are often used for items in cargo or in passengers' baggage which may contain dangerous goods;
- (b) other indications that dangerous goods may be present (e.g. labels, markings); and
- (c) those dangerous goods which may be carried by passengers in accordance with 2.3.

**2.2.4** Experience has shown that when shippers offer packages containing the following commodities, they must be asked to check their consignments against the class definitions and Special Provisions in the Regulations and confirm by endorsement of the "Air Waybill" that no part of the package contents is dangerous. e.g. "Not restricted".
